# Wine

<b>Our Philosophy</b>	Quite simply, the philosophy of the wine program at Adarra centers on the notion of authenticity. We are enamoured with vigneron who treat their land and its bounty with care, respect, and reverence. No herbicides, pesticides, or chemicals are used on their property. Harvesting is done by hand. Fermentation is guided by native yeast. Only minimal additions are used. It is through this thoughtful process that these wines can authentically tell the story of their origins, environment, and vintage. We are honored and delighted to share them with you.
